CHECKLIST – GREEN MARKETING

- Use green material in product packaging and production
- Use green methods in product promotion and advertisement
- Use online methods to buy and sell products and services
- Use online methods to conduct corporate meetings
- Brand the product indicating its green attributes (biodegradable, saved trees, recyclable)
- Engage the customer in providing feedback on green products and services
- Obtain credible certification and make it visible.
- Make information readily available about the green initiative.
- Provide accurate, understandable information (Use ‘Recyclable Plastic’ instead of ‘Environmentally Friendly’)
- Report sustainability to employees, clients, and stakeholders transparently.
- Ensure that customer questions and remarks on the product’s green elements are addressed
